

# SUPPLIER DECLARATION OF CONFORMITY (SDoC)

In accordance with ISO/IEC 17050-1:2004

SDoC Identification Number<sup>1</sup>: DOT9900 Tuneable White (TW) Recessed Series

## Issuer details

Name<sup>2</sup> (of New Zealand manufacturer or importer):

**Nimbus Lighting Group Ltd**

Telephone: +64 9 579 2162

New Zealand Company No. (if applicable): **3681956**

Email Address: sales@nimbuslighting.co.nz

Contact Address:

**180 Station Road  
Penrose  
Auckland 1061  
New Zealand**

## Medium Risk Article – Details<sup>3</sup> (Product name, type, rating, brand, model, batch numbers, and serial numbers, as applicable):

DOT9900 LED Tuneable White (TW) Recessed Series: Including model numbers:  
DOT9934TW, DOT9938TW, DOT9954TW, DOT9958TW, DOT9974TW, DOT9978TW,

## The Medium Risk Article listed above, fully complies:

### With cited standard(s), as listed<sup>4</sup>:

Standard number and issue year: **AS/NZS60598.1 2017  
AS/NZS60598.2.2 2016**

Edition / Amendment status:

Standard title:

**Luminaires Part 1 General Requirements & Tests  
Luminaires Part 2 Particular Requirements Recessed  
Luminaires**

AS/NZS ZZ modified Yes  No  N/A

Standard number and issue year: **AS/NZS CISPR15-2017**

Edition / Amendment status:

Standard title:

**Limits and methods of measurement of radio disturbance  
characteristics of electrical lighting and similar equipment**

AS/NZS ZZ modified Yes  No  N/A

OR Complies with the Conformity Cooperation Agreement<sup>5</sup> Yes  No

## Names and addresses of any testing organisation or body

Name(s): Spectrum Laboratories Ltd

Address(es): 1/25 Highbrook Drive, East Tamaki, Auckland 1730

Name(s): Gerard Lighting Pty Ltd  
Nimbus Lighting Group  
EMC Technologies

Address(es): 96 Gow Street, Padstow, NSW 2211 Australia  
180 Station Road, Penrose, Auckland, New Zealand  
P.O. Box 68307, Newton, Auckland, 1145, New Zealand

## Reference to relevant test reports/certification and the issue date that show how compliance is achieved

Standard(s) or document(s) used, to show how compliance with cited standard is achieved:

**AS/NZS60598.1 2017  
AS/NZS60598.2.2 2016  
AS/NZS CISPR15-2017  
PHOTOMETRIC REPORTS**

Report Certification or Document reference N°(s):

Test Report No 6888  
Test Report No D99178XLAB  
Test Report No EC4709  
PH6071A\_1, PH6071\_1

Issue dates(s):

25/08/2016  
15/4/2016  
8/7/2016  
29/01/2019

Reference to any management quality system involved:

Additional information<sup>6</sup>:

## Declaration (signed for and on behalf of)

Name and position as authorized by the issuer<sup>7</sup>:

Paul Austin, Product & Market Development Manager

Issuer Identification (as affixed to the article):

DOT DOWNLIGHTS

Signature:

Date:

28/02/19

# SUPPLIER DECLARATION OF CONFORMITY (SDoC)

In accordance with ISO/IEC 17050-1:2004

1. Every declaration of conformity should be uniquely identified.
2. The responsible issuer must be unequivocally specified.
3. The "Article" must be unequivocally described so that the declaration of conformity may be related to the article in question. For mass-produced-products, it is not necessary to give individual serial numbers. Where variants of an article are to be covered, these must be detailed.
4. The cited standard is the applicable specific safety standard exactly as it is cited in [Schedule 4 of the Electricity \(Safety\) Regulations 2010](#) or AS/NZS 3820, at the date that the declaration is signed. Where a valid Approval exists for a product issued by an Australian State Regulator Office (only), a copy of the Approval Certificate maybe used as evidence of compliance with the alternative AS/NZS 3820.
5. This is for products imported and offered for sale under the explicit control of the China "Conformity Cooperation Agreement" such product will be marked in accordance with that agreement and NZ suppliers of such product should obtain documentary evidence to support any claim that a product is covered by the agreement. Warning a product offered for sale that is marked in accordance with the CCA, that is not actually covered by the CCA is illegal and subject to a fixed Infringement Fee fine.
6. Text should appear here only if any limitation on the validity of the declaration of conformity and/or any additional information are given.
7. Full name and function of the signing person(s) authorised by the issuer's management to sign on its behalf should be given. The number of signatures, or equivalent, included will be the minimum determined by the legal form of the issuer's organisation.

## Continuing validity of the declaration of conformity

The issuer of the declaration of conformity shall have procedures in place to ensure the continued conformity of the medium risk article, as delivered or accepted, with the stated requirements of the declaration of conformity.

The issuer of the declaration of conformity shall have procedures in place to re-evaluate the validity of the declaration of conformity, in the event of:-

- a) changes significantly affecting the article design or specification,
- b) changes to the standards which conformity of the article is stated,
- c) changes in the ownership or structure of management of the supplier,
- d) if relevant, or relevant information indicating that the article may no longer conform to the specified requirements.

## Additional information regarding the declaration

"Issuer Identification" as affixed to the article: this marking should identify the issuer of the SDoC and may be for example in the form of a NZ GST N°, NZ Company N°, Unique NZ brand name or trademark, or SCN issued by Radio Spectrum Management (this number can be used, even if a C-tick is not required for the article), etc. Failure to mark a product with such unique identification may result in the issuer being held responsible for compliance of an article that may not have been supplied by the issuer, unless the issuer can prove otherwise! This is particularly relevant where the same or very similar model is or may be imported or manufactured, by other NZ suppliers.

A copy of the SDoC and test report(s) (certification) and/or other supporting compliance documentation must be available, if the supporting compliance documentation is not available directly from issuer, the name and address of from where it can be obtained from, must be provided by any supplier within the New Zealand supply chain. (Note: A copy of the SDoC and supporting documentation must be available within 10 working days after being asked to do so, by Energy Safety, a purchaser, or other consumer, of the article declared).

A person who sells or offers for sale, a declared medium risk article commits an offence, if at the time of sale or offer to sell, a valid declaration of conformity for the article has not been made, or the person cannot provide a copy of the declaration of conformity, along with the required supporting documentation, within the timeframe allowed. Penalties associated with a grade A offence are fines, not exceeding \$10,000 for an individual or \$50,000 for a body corporate (company) if successfully prosecuted, or a fixed infringement fee, of \$1,000 for an individual or \$3,000 for a body corporate (company).

See [listings of the current regulatory definitions for electrical equipment deemed to be medium risk articles](#), on the Energy Safety website [www.energysafety.govt.nz](http://www.energysafety.govt.nz).

This form can be edited to increase any text box size, in order to insert more detail, than the current space allows, if required.

This is an example ISO/IEC 17050-1 form for a recognised declaration of conformity; any other form complying with the requirements of ISO/IEC 17050-1:2004, may be used instead, for the purpose of Electricity Regulation 83.

Nothing prevents this form being extended to act as an SDoC, for other regulatory purposes.

**This completed form remains with the issuer as part of the documentation required as evidence of compliance**  
DO NOT submit a copy of this form to Energy Safety unless specifically requested to do so.
